Activation call party

Where we describe the incentivisation of participants through a bounties mechanism in which an ACTIVATOR on the street moderates a video call (Hangouts, Houseparty, Jitsi, Pepo, Zoom, etc.) with several randomly-selected remote VERIFIERS|WITNESSES that interact with the BENEFICIARY.

The video, audio, and transcript of the activation call party are then referenced on the SolidarityCard address and displayed in the BENEFICIARY's profile StoryView.
